

RoHS Certificate of Compliance

Messagemaker – IPWallboard & IPNoticeboard Range

As of 9th June 2006

The products listed below are in compliance with the European Union Directive 2002/95/EC on the restriction of certain hazardous substances (“**RoHS Directive**”).

Based on information provided by our component suppliers, Messagemaker Displays designates the products listed below as **RoHS compliant** for orders placed on or after the date of this certificate.

RoHS compliant means that:

- Our suppliers have confirmed the compliance status of the relevant products to us.
- We have implemented rigorous processes to confirm and document this.
- We perform material content testing where appropriate.

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in the European Union Commission of August 18th, 2005 (2005/618/EC) in connection with Articles 4 and 5 or the RoHS Directive in concentrations in excess of the values permitted there under or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

For purposes of this RoHS Certificate, the maximum concentration values restrict substances by weight of homogeneous materials are:

- Hexavalent Chromium (Cr+6) 1,000 ppm
- Poly-Brominated Biphenyls (PBB’s) 1,000 ppm
- Poly-Brominated Biphenyl Ethers (PBDE’s) 1,000 ppm
- Cadmium (Cd) 100 ppm
- Mercury (Hg) 1,000 ppm
- Lead (Pb) 1,000 ppm
